I Tech – The Technical Club Hosts Technophilia 2018-19

Invertis University's I Tech – The Technical Club hosted Technophilia, a dynamic event showcasing technical prowess and innovation. From February 7th to 9th, Seminar Hall 1 buzzed with diverse technical competitions, embodying the spirit of technological advancement.

Participants engaged in coding marathons, robotics challenges, and design thinking workshops, showcasing their problem-solving abilities. The event also featured enlightening talks by industry experts, highlighting emerging trends and career prospects in technology.

Technophilia fostered collaboration, providing a platform for networking among participants from various disciplines. Organized by Invertis University, Bareilly, this event underscored the institution's commitment to nurturing technical excellence and fostering innovation.
