

Press Release

Name of Event: Save the drop campaign
Date: 22 March- 2021

Press Release

"Save Water campaign".

The "save water" campaign was initiated to address the pressing issue of water scarcity and promote sustainable water usage within our community. This campaign demonstrated the positive impact of collective efforts in addressing water scarcity issues.

"TO SUSTAIN WATER SAVING PRACTICES, WE RECOMMEND INTEGRATING WATER CONSERVATION TOPICS INTO THE ACADEMIC CURRICULUM."

Faculty and students are collaborating to find practical solutions to reduce wastage of water inside and outside the campus.
