

**Name of the Cell/Department:** The Responsible Invertian Club, Invertis University

**Academic year:** 2021-22

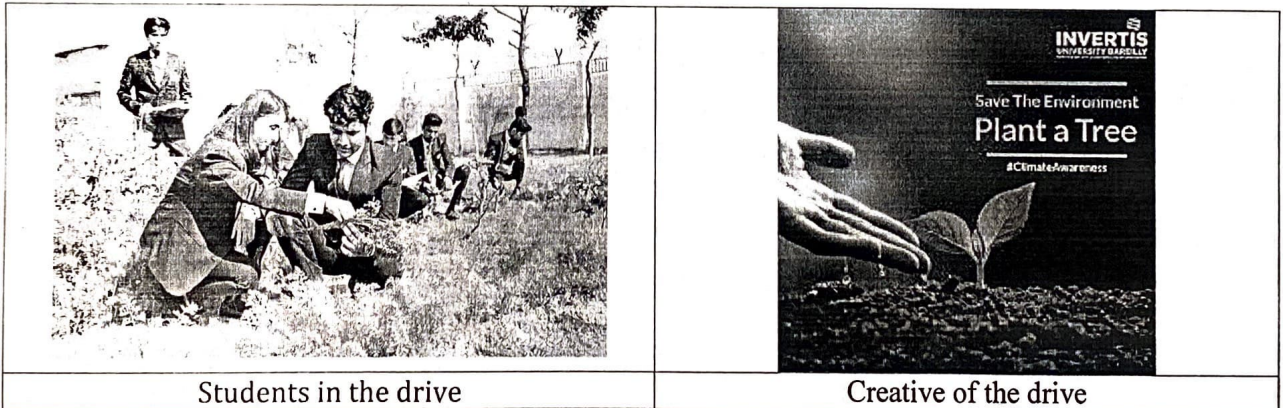

**Name of Event:** SEEDS SOW DRIVE

**Date:** 13 March 2022

**Venue:** Invertis University, Bareilly

**Description:**

The Responsible Invertian club have taken a good initiative and organized a drive of sowing seeds in the city. They also have organized few online sessions for university's students to make them aware about the importance of tree plantation. This drive will write a new saga of sensitivity of CAPFs towards conservation of earth and climate change along with bravery. Environmental protection is possible only by planting trees, a tree planted today will provide oxygen to many future generations. Seeds planted were of best trees like medicinal and the ones that can help in cleaning or purifying the air to a large extend. The dividers were targeted for planting seeds in an organized way for a beautiful looking city.
